GROW HOPE UPDATE

The Grow Hope crop grown by our grower Fred Wiebe and Sons has been harvested and is in the bin. Despite the many challenges farmers faced this year in the Red River Valley, Fred was able to get the crop in fairly good shape. The crop Fred grew this year for Grow Hope was wheat. The crop was average and yielded about 70 bushel/acres. In light of all the weather challenges Fred faced, this was a pleasant surprise.

As we have earlier discussed, we planned to purchase a minimum of 40 acres of crop from Fred this year. This means that our goal is to raise a minimum of \$12,000 (\$300 acres x 40 acres) which we will pay to Fred to help cover some of his input costs. If we can raise more, we can purchase more crop/acres from Fred.

For those parishes who have been doing fund raising for this program we would ask that you forward the donations to Joy at the Diocesan office, marked GROW HOPE program. Joy has an account set up for the program. We ask that funds be sent in by the end of October so that we can wrap the program up and get the funds to the Alongside Hope account at the Canadian Foodgrains Bank. All the funds raised this year will be used to support an Alongside Hope program in the southern part of the Democratic Republic of Congo. We've attached the program description to this email.

If you need any more information about the program we are supporting please let us know and we can forward the information to you.

Once again, a big thank you for your continued support of the Grow Hope program. You are helping to make a difference.
